JUNE - JULY

K's DAYS CHRONICLES

Greetings to all,

The months of June and July were filled with excitement and enthusiasm as the newly formed clubs set their work in motion. It was fascinating to see the young 'Karenites' in action as they displayed their talents in various areas. It was time for them to put their best foot forward. We were left in awe as our students never cease to surprise us. Under the guidance of their teachers and cooperation of the parents each event was a huge success. In this issue we have tried to encapsulate the students at their best.

'HAPPY READING'

SHOW AND TELL COMPETITION

A 'Show and Tell' Competition was organized on the 9th of July, 2021. The theme was 'My favourite' and the aim of the club was to hone the speaking skills of the tiny tots of the Kindergarten sections. The participants were trained by their teachers and the parents decorated their wards' study corners with colourful posters and props. The perfect coordination between the parents and teachers showed that together we can do so much.

HINDI ESSAY WRITING COMPETITION

The Writers Club had organized a Hindi Essay Competition for the Std 5 students on 20th July 2021. It was a fascinating and unusual event as the students used props and masks to depict various colourful birds. The flighty imagination of the students soared high as they penned down their thoughts on the importance of birds in nature and their conservation.

“The Colorful World of Birds teach us a great life lesson, all you have to do is to listen to their song. They sing even after a storm. ”

‘Become like a bird, expand your wings, learn new things and fly as high as you can.’

YOGA DAY

The International Yoga Day was celebrated online on 21st June. The students practiced many yogasanas along with their teachers. The enthusiasm and zeal with which the students took part in these activities was commendable. They were taught that these poses were their prayers for health and would have multiple benefits in developing their mental and physical health.

MATHS ACTIVITY

Learning mathematics has never been so exciting before, as these tiny tots show us how basic concepts of shapes, numbers etc can be learnt from nature.
